

Evaluation License Agreement

This limited non-exclusive non-transferable License Agreement is between

AbsInt Angewandte Informatik GmbH
Science Park 1
D-66123 Saarbrücken
GERMANY

and LICENSEE:

and pertains to the tools indicated in Section 7, including example programs and documentation ("SOFTWARE").

1 Authority to Bind

You represent and warrant that you have actual authority and are duly authorized to bind your principal or employer, if the SOFTWARE has been acquired for them, and that you have adequate legal capacity to enter into binding agreements on behalf of yourself, or your principal or your employer.

2 Confidentiality

1. "CONFIDENTIAL INFORMATION" is defined as follows: Information (i) relating to the architecture, design, and coding methodology embodied in the SOFTWARE; (ii) embodied herein regarding the terms and conditions of this Agreement; and (iii) disclosed by one party to the other regarding past, present, or future marketing and business plans, customer lists, and lists of prospective customers.
 - "CONFIDENTIAL INFORMATION" includes all tangible materials which contain the information described above, including without limitation, written or printed documents and electronic media.
 - "CONFIDENTIAL INFORMATION" does not include (i) information which is or becomes generally known or available through no act or failure to act by the receiving party; (ii) is already known by the receiving party as evidenced by its written records, (iii) is rightfully furnished to the receiving party by a third party without restriction or disclosure; or (iv) is independently developed by the receiving party without reference to CONFIDENTIAL INFORMATION.
2. Each party acknowledges that the other party may disclose its CONFIDENTIAL INFORMATION to the other in the performance of this Agreement. Each party further acknowledges the other party's assertion that the other party's CONFIDENTIAL INFORMATION is deemed to include valuable trade secrets and confidential business information proprietary to the other party and/or third parties. Accordingly, each party shall (i) take reasonable steps to keep the CONFIDENTIAL INFORMATION disclosed by the other party confidential, and (ii) use and disclose such CONFIDENTIAL INFORMATION only with the receiving party's employees and contractors who have a need to know and only for the purposes of fulfilling this Agreement.
3. Specifically regarding the SOFTWARE, LICENSEE acknowledges AbsInt's claim that the SOFTWARE embodies valuable trade secrets proprietary to AbsInt. Accordingly, LICENSEE shall take reasonable measures to protect the SOFTWARE from unauthorized access, disclosure, and use.

3 Copyright and Restrictions

1. All intellectual property rights in the SOFTWARE are protected by German copyright laws, other applicable copyright laws, and international treaty provisions. All rights are retained that are not expressly granted. No title, property rights or copyright in the SOFTWARE or in any modifications to the SOFTWARE shall pass to the LICENSEE under any circumstances.
2. The LICENSEE agrees not to make nor to permit the making of copies of the SOFTWARE (including its Documentation) except as authorized by this License Agreement or otherwise authorized in writing by AbsInt Angewandte Informatik GmbH. The LICENSEE agrees not to distribute, sublicense or copy any portion of the SOFTWARE; modify or prepare derivative works from the SOFTWARE; or revise, reverse engineer, decompile or disassemble the SOFTWARE in whole or in part or permit any third party to do or attempt same. The LICENSEE may not alter or remove any details of ownership, copyright, trade mark or other property right connected with the SOFTWARE.
3. The LICENSEE may use the SOFTWARE for internal evaluation purposes only. The evaluation period is limited to a fixed term. All rights granted to the LICENSEE in this agreement will be void after the end of the evaluation period, which is no later than 30 days after the LICENSEE received the SOFTWARE.

4 Limitation of Liability

The SOFTWARE is provided "AS IS".

5 Termination of this License

AbsInt Angewandte Informatik GmbH may terminate this license at any time if LICENSEE is in breach of any of its terms and conditions.

Upon termination or at the end of the evaluation period, LICENSEE will immediately destroy the SOFTWARE or return all copies of the SOFTWARE and Documentation to AbsInt Angewandte Informatik GmbH and will certify so in writing.

6 Applicable Law

This license shall be governed and interpreted in accordance with the laws of Germany. Any disputes arising herefrom shall be subject to the jurisdiction of appropriate courts of Saarbrücken, Germany.

7 Product

Please indicate your wishes with a \otimes and see the link for a list of supported processors, compilers and further restrictions:

Processor	Compiler
aiT for	
aiT computes safe upper bounds for the worst-case execution time (WCET) of tasks. See http://www.absint.com/ait/targets.htm	

Processor	Compiler
StackAnalyzer for	
StackAnalyzer computes safe upper bounds for the worst-case stack usage of tasks. See http://www.absint.com/stackanalyzer/targets.htm	

Processor	Compiler
TimingProfiler for	
TimingProfiler computes execution time estimates of programs early in the development process, when measurements on physical hardware are too costly or not even possible. It is ideally suited for constantly monitoring timing behavior during software development and identifying bottlenecks. See http://www.absint.com/timingprofiler/targets.htm	

Processor	Compiler
TimeWeaver for	
TimeWeaver combines static path analysis with timing measurements to provide worst-case execution time estimates. See http://www.absint.com/timeweaver/	

Architecture	
CompCert for	/ Valex
CompCert is a formally verified optimizing C compiler. It is the only C compiler that's been formally verified to be free of miscompilation issues. Valex is a tool for postpass validation of the executable compiled with the WindRiver Diab or GCC toolchain. See http://www.absint.com/compcert/	

Astrée for C	Verifying the absence of runtime errors in C programs.
See http://www.absint.com/astree/	

RuleChecker	Checking coding guidelines (MISRA, CWE, SEI CERT etc.) in C programs.
See https://www.absint.com/rulechecker/	

8 Platform

Windows 64-bit

Linux 64-bit

9 Introduction and Evaluation Support

Your evaluation begins with a free interactive Web-based training. We use WebEx for sharing our desktop with you, and regular phone for the sound. During the training we will help you set up the tools and explain how to operate them so you can quickly evaluate them on your own projects.

Alternatively, our support team can visit you on-site, set up the initial operation and fine-tune the products to your operational conditions. For this installation service, only travel costs will be billed. Lastly we offer 1-2 day introductory and training courses on-site or in Saarbrücken at affordable rates.

Support Packages

Web-based training (free)

On-site installation and project set-up

Training course (1-2 days)

Please contact me to discuss further support packages.
